Summary Analysis - April 2016

Electricity Supply Monitoring Initiative (ESMI) is a program being implemented by Prayas (Energy Group). It aims to improve transparency and provide evidence based feedback about the quality of electricity supply. Under ESMI, specially designed, mobile data enabled monitors are being deployed at each location and supply quality data is published daily at watchyourpower.org. ESMI was selected as a finalist for Google Impact Challenge, India, 2013, given to NGOs using technology for social impact. It was launched in March 2015 and currently covers over 50 districts across India.

This report presents a summary analysis of supply quality data from 160 locations (33 Rural and 127 Urban) for April 2016. This analysis covers three main parameters of supply quality: i) no supply hours, ii) number of interruptions, and, iii) evening hours of supply. The analysis is carried out for mega cities, other cities and rural areas. See notes at the end for more details and explanation.

In April 2016

46%

ESMI locations experienced outages for more than 15 hours

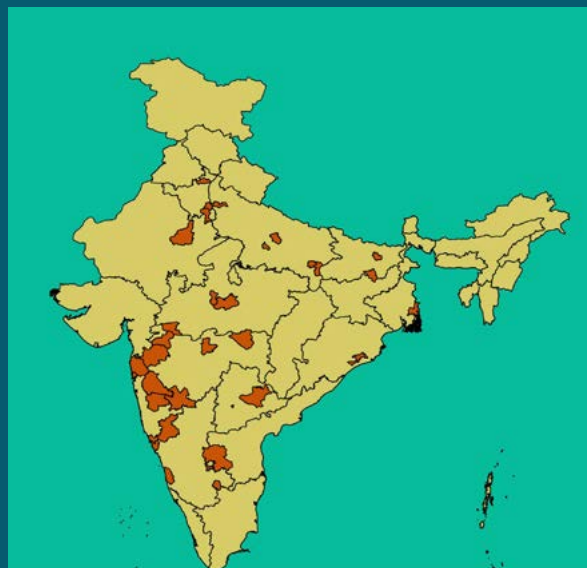

24%

ESMI locations experienced more than 30 interruptions each greater than 15 min

16%

ESMI locations experienced average 30 min of outage during evening hours

Map showing current ESMI Expanse at district level

Supply Quality in Mega Cities - April 2016

Mega City	ESMI locations	Average number of interruptions per location		Average no supply hours per location
		Short 15 min-1 hour	Long More than 1 hr	
Chandigarh	5	1	1	1
Jaipur	7	2	1	2
Delhi	7	4	3	10
Hyderabad	9	6	4	10
Pune	6	4	2	11
Bengaluru	8	13	6	17
Kanpur	9	21	10	35

ID: AVGMC160401

Supply Quality in Other Cities - April 2016

Average number of Interruptions per location

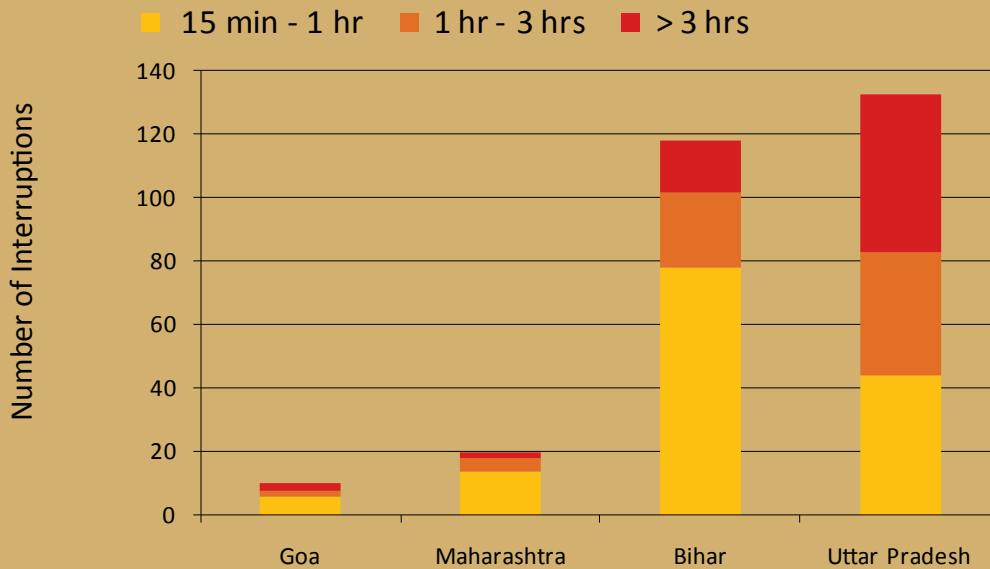

Average no supply hours per location

States	Cities covered	ESMI locations
Maharashtra	7	29
Haryana	1	4
Karnataka	2	5
Uttar Pradesh	3	6
Bihar	2	7

ID: AVGOMC160402

Supply Quality in Rural Areas - April 2016

April 2016	Goa	Maharashtra	Bihar	Uttar Pradesh
ESMI locations	5	9	6	5
Average no supply hours	16	24	180	418

ID: AVGGP160403

ESMI Locations Receiving Entire Six Hours Of Evening Supply

59%
Mega Cities

49%
Other Cities

18%
Rural areas

Evening supply hours considered is between 5 p.m. to 11 p.m. and this analysis ignores upto 2 hours of total evening supply interruptions during the month.

esmi@prayaspune.org

Notes:

- Analysis in this report covers locations with more than 90% data availability during the month
- Urban locations are State Capitals, District Headquarters and Other Municipal Areas.
- Mega Cities are urban locations as defined by Central Electricity Authority (typically with population more than 20 lakh)
- Other cities are urban locations that are not mega cities
- Rural areas are those governed by Gram Panchayats (village councils)
- Agricultural locations covered under ESMI are excluded from this analysis
- Analysis, except evening hours of supply, consider interruptions of more than 15 minutes.
